FOREWORD

This most genuine sale of the entire Dalbylodge Herd on behalf of the Brothwell family results from their decision to retire from farming at Atterton Farm the tenancy being relinquished in March 2020.

The sale comprises 57 Cows and Heifers In-milk and In-calf and 5 In-calf Heifers and 5 Youngstock.

The Dalbylodge herd was established back in 1985 and is entirely homebred and although not milk recorded is averaging approximately 7500kg calculated from milk sent.

The cows are powerful, consistently strong in stature with good well attached udders.

A recording has been specifically undertaken for the sale the results of which are shown on the catalogue.

The most recent milk statement shows a superb milk quality of

4.12%F 3.39%P cc121

The herd is loose housed and milked via a herringbone parlour with management based on grass silage (NOT TMR) with concentrates fed in the parlour.

Herd health is good with tests for BVD, Leptospirosis and IBR taken in November coming back clear and a random test of 32 milkers taken for Johnes in autumn 2018 all coming back green.

This is a good herd of cows from a very genuine family and can be thoroughly recommended to both pedigree and commercial producers.
